COMMERCIAL REBATE PROGRAM REBATE SUMMARY

TECHNOLOGY	REBATE LEVEL (\$/kW unless otherwise noted)
Air Conditioning (Direct Expansion)*	\$660/kW
Air Conditioning (VRF Multi-Split)*	\$660/kW
Air Conditioning (Chillers)*	Air Cooled: \$300/kW Water Cooled: \$450/kW
Cooling Towers	\$300/kW
Commercial Kitchen	See 'Commercial Kitchen Equipment' webpage
Custom Technology	Process Change: \$200/kW Custom Equipment: \$350/kW
Electronically Commutated Motors (ECM)	\$350/kW
Energy Recovery Ventilators (ERV)	\$300/kW
Guest Room Controllers	\$50 per device installed
Heat Pump Water Heaters	\$800 per unit installed
Lighting	See 'Lighting' on page 2
New Construction	New Construction Lighting: \$125/kW All other technologies: same \$/kW as standard retrofits
Plug Load Controls	\$25 per device installed
Roof/Ceiling Insulation†	\$0.20/sq ft
Spray-on/Paint-on Reflective Roof Coating†	\$0.15/sq ft
Thermal Energy Storage (TES)	\$350 per kW
Transformers	\$300/kW
Uninterrupted Power Supplies (UPS)	\$300/kW
Variable Frequency Drive (VFD)	\$400/kW + \$50 if installed with CEE Tier 2 motor
Window Treatment†	SHGC 0.37 or Less: \$1.00/sq ft SHGC 0.50 – 0.38: \$0.60/sq ft
New Windows†	SHGC 0.27 or Less: \$1.00/sq ft
Smart Thermostats	\$25 per device installed

*All equipment must exceed the current International Energy Conservation Code (IECC) baseline.

† Excludes new construction projects.
