MULTIFAMILY REBATE PROGRAM REBATE SUMMARY

Offering	Unit	Description	REBATE			
			Multifamily Standard	Multifamily Standard (Bundled) ¹	Multifamily Income Qualified	
Attic Insulation (R-30 installed) ²	\$/SqFt	Insulation must be installed between the roof and a mechanically cooled space in rental units only. Total rebate amount depends the installed R-Value (R10-R30), or the difference (delta) between the baseline and final insulation levels	\$0.71	\$0.89	\$1.19	
AC or Heat Pump	14.5-14.9 SEER	Rebate is based on Seasonal Energy Efficiency Ratio (SEER) level of installed air conditioner or heat pump system.	\$230.00	\$230.00	\$230.00	
	15-15.9 SEER		\$250.00	\$250.00	\$250.00	
	16-16.9 SEER		\$285.00	\$285.00	\$285.00	
	17+ SEER		\$290.00	\$290.00	\$290.00	
Duct Sealing and Remediation	\$/Ton	Reduce system losses by sealing HVAC ducts for properties with 'up flow' and 'stud mount' units. Leakage must be reduced by an average of 25% for the property and final sealed ducts cannot exceed 15% leakage rate (measured in cubic feet per minute).	\$50.00	\$60.00	\$75.00	
Plenum Redesign and Remediation	\$/Plenum	Improve air flow efficiency by damming and sealing the plenum for properties with 'furred down' units. Leakage must be reduced by an average of 25% for the property and final sealed ducts cannot exceed 20% leakage rate (measured in cubic feet per minute).	\$245.00	\$280.00	\$350.00	
HVAC Tune-Up	\$/Unit	Rebates are provided for specific maintenance performed on each unit. Contractors will scope tune-up requirements based on a visual inspection and diagnostic testing results. Tune-up scope may include items such as replacing filters, cleaning coils, evaluating refrigerants and diagnostic testing.	\$240.00	\$240.00	\$300.00	
Lighting	A Lamp	\$/Lamp ³	A Lamp: Max 10W installed and must save 45W	\$2.50	\$2.50	\$3.00
	Candelabra		Candelabra: Max 7W installed and must save 33W	\$4.00	\$4.00	\$5.00
	Spot/Flood		Spot/Flood: Max 16W installed and must save 40W	\$5.00	\$5.00	\$6.00
	Linear Fluorescent		Linear Fluorescent: Max 12W installed and must save 20W	\$5.00	\$5.00	\$6.00
Solar Screens/Solar Film	\$/SqFt	Window must be single or double pane only and final solar heat gain coefficient (SHGC) must be 0.30 or less.	\$2.20	\$2.20	\$2.75	
Window Replacement	\$/SqFt	Window must be single or double pane only and final solar heat gain coefficient (SHGC) must be 0.25 or less.	\$2.20	\$2.20	\$2.75	
Water Saving Devices	\$/kW savings	Availability subject to Austin Water Utility	\$400.00	\$500.00	\$600.00	
Power Partner Thermostats	\$/Unit	Properties receive rebates for the installation of an approved Wi-Fi-enabled smart thermostat (Ecobee3 lite; Nest E; or Honeywell T5+/T6 Pro). Tenants are eligible to receive an additional rebate if they choose to enroll in Smart Energy Saving Events.	\$150.00	\$150.00	\$150.00	
ECAD Incentive	Per Property	Properties that have not completed an ECAD (Energy Conservation and Audit Disclosure) audit in the past 10 years are eligible to receive a rebate to cover the audit costs. The incentive will be included and paid at the completion of the energy efficiency upgrade project through the MF or MFIQ program.	Maximum \$2,500 per property			

¹ Bundled rebate available for properties that install 3 or more measures

² See Attic Insulation table on page 2

³ Lamp wattage savings are based on property average
